EDUCATION & ACHIEVEMENTS

JK Lakshmipat University , Jaipur , Rajasthan

B. Tech in Computer Science with a **CGPA** of **9.05** **Graduation : 2024-2028**

Scholarships : Awarded **100% merit-based scholarship** .

Honors List: Regularly mentioned in the official Honors List of the university for academic excellence.

TECHNICAL SKILLS

Languages: Java , JavaScript ,Python ,C , SQL
Full-Stack (MERN): MongoDB, Express.js, React, Node.js ,Next.js
Backend & Real-Time: REST APIs, WebSockets, JWT, Google OAuth
Databases: MongoDB, PostgreSQL, MySQL
AI / GenAI: Retrieval-Augmented Generation (RAG)
Deployment & Tools: Virtual Machine(Linux), Shell/Bash, Git, GitLab, GitHub

EXPERIENCE

Software Engineering Intern @ Hughes Systique Corporation, Gurugram | **Onsite** **May 2026 – Jul 2026**

1. Built a full-stack event platform for the company's annual Tech Day, used by employees to browse project demos by day and venue, submit feedback, and ask questions about any projects with AI.
2. Developed a **RAG-based "Ask AI"** assistant: PPTs are fetched via Google Drive API, parsed, chunked, embedded and stored in PostgreSQL (pgvector).
3. Implemented **Face ID login** with OTP fallback, plus an admin panel for user/project management, **bulk Excel/ZIP imports**, and role-based access.
4. Designed the PostgreSQL schema and built a **feedback system** with a leaderboard that ranks projects on idea, presentation, and content for admins and project teams.
5. Deployed the platform on a **company-hosted Linux VM** (Virtual machine) using shell commands, managed source control and collaboration through a **GitLab** repository.

PROJECTS

github.com/ayushsharma2440

SABRANG 2025 (Annual University Cultural Fest) **|** sabrang.jklu.edu.in **May 2025 – October 2025**

- Developed REST APIs using **Node.js** with JWT-based authentication, Payment gateway integration with CashFree, Individual/Team registration and ticket generation with email delivery.
- Database schema design , Admin dashboard for check-in in a **Next.js** application.
- Managed Deployment of Backend service on Railway
- Generated **₹100,000+ in revenue** through website-based event registrations.

Linkli (Advanced URL shortener) www.linkli.xyz **April 2025 – July 2025**

- Developed a full-stack URL shortener using **Node.js, Express.js, MongoDB** including features such as custom aliases, time-based expiry, one-time-use links, password-protected URLs, and QR codes
- Integrated secure authentication with **email/password login** and **Google OAuth 2.0**
- Designed detailed **analytics tracking** capturing device type, browser, operating system
